UNSCEAR 1993 REPORT

SOURCES AND EFFECTS OF IONIZING RADIATION

United Nations Scientific Committee on the Effects of Atomic Radiation

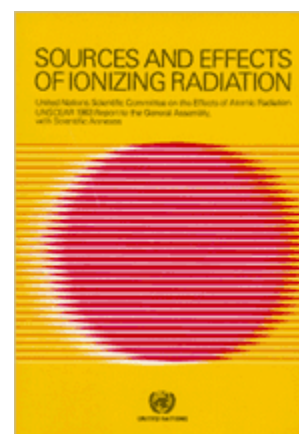

UNSCEAR 1993 Report to the General Assembly, with Scientific Annexes

CONTENTS:

[Report to the General Assembly](#)

Scientific Annexes

- Annex A: Exposures from natural sources of radiation
- Annex B: Exposures from man-made sources of radiation
- Annex C: Medical radiation exposures
- Annex D: Occupational radiation exposures
- Annex E: Mechanisms of radiation oncogenesis
- Annex F: Influence of dose and dose rate on stochastic effects of radiation
- Annex G: Hereditary effects of radiation
- Annex H: Radiation effects on the developing human brain
- Annex I: Late deterministic effects in children
